Volume 245, no. 1

Guidelines for the Submission of Manuscripts v

Impairment of dentato-thalamo-cortical pathway in autistic men: language activation data from positron emission tomography
R.-A. Müller, D.C. Chugani, M.E. Behen, R.D. Rothermel, O. Muzik, P.K. Chakraborty, H.T. Chugani (USA) 1

Chemical and electrical stimulation induce rhythmic motor activity in an in vitro preparation of the spinal cord from adult turtles
P.A. Guertin, J. Hounsgaard (Denmark) 5

Endonucleolytic DNA fragmentation is not required for apoptosis of cultured rat cerebellar granule neurons
J.B. Schulz, S. Beinroth, M. Weller, U. Wüllner, T. Klockgether (Germany) 9

Differential release of cholecystokinin by morphine in rat spinal cord
G. de Araujo Lucas, P. Alster, E. Brodin, Z. Wiesenfeld-Hallin (Sweden) 13

α-Tocopherol prevents ethanol-induced elevation of $[Ca^{2+}]_i$ in cultured canine cerebral vascular smooth muscle cells
T. Zheng, W. Li, A. Zhang, B.T. Altura, B.M. Altura (USA) 17

Amount of sympathetic sprouting in the dorsal root ganglia is not correlated to the level of sympathetic dependence of neuropathic pain in a rat model
H.J. Kim, H.S. Na, B. Sung, S.K. Hong (South Korea) 21

Sleep modifications during cool acclimation in human neonates
F. Telliez, V. Bach, G. Dewasmes, A. Leke, J.-P. Libert (France) 25

Direction-specific impairment of motion perception and spatial orientation in downbeat and upbeat nystagmus in humans
M. Dieterich, W.M. Grünbauer, T. Brandt (Germany) 29

Function-specific distribution patterns of axon terminals of input neurons in the calyces of the mushroom body of the cockroach, *Periplaneta americana*
M. Nishikawa, H. Nishino, M. Mizunami, F. Yokohari (Japan) 33

Body response to binaural monopolar galvanic vestibular stimulation in humans
A.S. Cauquil, M.F.T. Gervet, M. Ouaknine (France) 37

Phenylethanolamine-*N*-methyltransferase – immunoreactive nerve terminals afferent to the mouse substantia nigra
I. Nagatsu, K. Ikemoto, T. Takeuchi, R. Arai, N. Karasawa, T. Fujii, T. Nagatsu (Japan) 41

Cyclin-dependent kinase-5 is associated with lipofuscin in motor neurones in amyotrophic lateral sclerosis
N.P.S. Bajaj, S.T. Al-Sarraj, V. Anderson, M. Kibble, N. Leigh, C.C.J. Miller (UK) 45

Detection of a gliotoxic activity in the cerebrospinal fluid from multiple sclerosis patients
A. Ménard, R. Pierig, J. Pelletier, P. Bensa, J. Belliveau, B. Mandrand, H. Perron, F. Rieger (France) 49

Effect of the subchronic treatment with the acetylcholinesterase inhibitor heptastigmine on central cholinergic transmission and memory impairment in aged rats
B. Garrone, M.R. Luparini, L. Tolu, M. Magnani, C. Landolfi, C. Milanese (Italy) 53

Vascular head pain selectively activates ventrolateral periaqueductal gray in the cat
K.A. Keay, R. Bandler (Australia) 58

Volume 245, no. 2

Melatonin protects nigral dopaminergic neurons from 1-methyl-4-phenylpyridinium (MPP^+) neurotoxicity in rats
B.K. Jin, D.Y. Shin, M.Y. Jeong, M.R. Gwag, H.W. Baik, K.S. Yoon, Y.H. Cho, W.S. Joo, Y.S. Kim, H.H. Baik (South Korea) 61

Cell kinetics of surgically induced spinal open neural tube defect in chick embryos
I.S. Park, B.-K. Cho, J.G. Chi, K.-C. Wang (South Korea) 65

A live non-neurovirulent herpes simplex virus vector expresses β-galactosidase in the nervous system of the Wistar and Sprague-Dawley strain rat for a prolonged period
K. Shiraki, J.-i. Yamamura, M. Kurokawa, T. Andoh, H. Sato, Y. Yoshida, Z.H. Li, T. Kamiyama, S. Kageyama (Japan) 69

One-to-one synchronization between the cardiac sympathetic nerve stimuli and heart beats in rats
Y. Masuda (Japan) 73

Differences in the effects of zolpidem and diazepam on recurrent inhibition and long-term potentiation in rat hippocampal slices
M. Higashima, H. Kinoshita, Y. Koshino (Japan) 77

Spinocerebellar Purkinje cells and rat forelimb postures: a direction-dependent activity
G. Giaquinta, A. Casabona, M.S. Valle, G. Bosco, V. Perciavalle (Italy, USA) 81

The antiepileptic drug AWD 131–138 stimulates different recombinant isoforms of the rat $GABA_A$ receptor through the benzodiazepine binding site
E. Sigel, R. Baur, R. Netzer, C. Rundfeldt (Switzerland, Germany) 85

Sympathectomy does not affect the early ectopic discharge from myelinated fibres in ferret inferior alveolar nerve neuromas
U. Bongenhielm, J.M. Yates, K. Fried, P.P. Robinson (UK, Sweden) 89
The phosphorylated isoform of microtubule associated protein 1B (MAP1B) is expressed in the visual system of the tench (*Tinca tinca*, L) during optic nerve regeneration
E. Vecino, L. Ulloa, J. Avila (Spain) 93
Light of domestic intensity produces phase shifts of the circadian oscillator in humans
J. Waterhouse, D. Minors, S. Folkard, D. Owens, G. Atkinson, I. Macdonald, T. Reilly, N. Sytnik, P. Tucker (UK) 97
Modulation of cell responses to horizontal disparities by ocular vergence in the visual cortex of the awake *macaca mulatta* monkey
F. Gonzalez, R. Perez (Spain) 101
Human apolipoprotein E accelerates microtubule polymerization in vitro
B.L. Scott, K. Welch, V. deSerrano, N.C. Moss, A.D. Roses, W.J. Strittmatter (USA) 105
Central administration of a nitric oxide synthase inhibitor causes pressor responses via the sympathetic nervous system and the renin-angiotensin system in Wistar rats
S. Moriguchi, N. Ohzuru, N. Koga, K. Honda, R. Saito, Y. Takano, H.-o. Kamiya (Japan) 109
Circadian expression of serotonin *N*-acetyltransferase mRNA in the rat retina
K. Sakamoto, N. Ishida (Japan) 113
Age-related decline of F3/Contactin in rat hippocampus
K. Shimazaki, H. Hosoya, Y. Takeda, S. Kobayashi, K. Watanabe (Japan) 117
Cerebrospinal fluid homovanillic acid levels are not reduced in early corticobasal degeneration
K. Kanemaru, K. Mitani, H. Yamanouchi (Japan) 121

Volume 245, no. 3

Heterodimer SRP9/14 is an integral part of the neural BC200 RNP in primate brain
J. Kremerskothen, D. Zopf, P. Walter, J.-G. Cheng, M. Nettermann, U. Niewerth, R.J. Maraia, J. Brosius (Germany, USA) 123
Neuronal apoptosis in rats is accompanied by rapid impairment of cellular respiration and is prevented by scavengers of reactive oxygen species
A. Atlante, S. Gagliardi, E. Marra, P. Calissano (Italy) 127
Osteogenic protein-1 and related bone morphogenetic proteins regulate dendritic growth and the expression of microtubule-associated protein-2 in rat sympathetic neurons
X. Guo, D. Rueger, D. Higgins (USA) 131
In rat hippocampal slices, NMDA receptor-mediated EPSPs are more sensitive to hypoxia than AMPA receptor-mediated EPSPs
R. Nader, R. Forghani, K. Krnjević (Canada) 135
Age-related changes in nicotinic acetylcholine receptor subunits $\alpha 4$ and $\beta 2$ messenger RNA expression in postmortem human frontal cortex and hippocampus
H. Tohgi, K. Utsugisawa, M. Yoshimura, Y. Nagane, M. Mihara (Japan) 139
Effects of ethylene glycol tetraacetic acid, A23187 and calmodulin, calcium activated neutral proteinase antagonists on melatonin secretion in perifused chick pineal gland
M.T. Agapito, M. Pablos, R.J. Reiter, J.M. Recio, R. Gutierrez-Baraja (Spain) 143
Relationship between fluctuations in the cerebral hemoglobin oxygenation state and neuronal activity under resting conditions in man
Y. Hoshi, S. Kosaka, Y. Xie, S. Kohri, M. Tamura (Japan, China) 147
Sprouting of the serotonergic afferents into striatum after selective lesion of the dopaminergic system by MPTP in adult mice
G. Rozas, I. Liste, M.J. Guerra, J.L. Labandeira-Garcia (Spain) 151
Training improves the adaptation to changing visual conditions in maintaining human posture control in a test of sinusoidal oscillation of the support
P. Perrin, D. Schneider, D. Deviterne, C. Perrot, L. Constantinescu (France, Germany) 155
Alteration of *myo*-inositol monophosphatase in Alzheimer's disease brains
S. Shimohama, H. Tanino, Y. Sumida, J. Tsuda, S. Fujimoto (Japan) 159
Metabolic disturbances in hippocampal slices of fetal guinea pigs during and after oxygen-glucose deprivation: is nitric oxide involved?
R. Berger, A. Jensen, W. Paschen (Germany) 163
Binocular behavior of split-brain cats which have previously learned monocularly opposite visual discriminations
G.G. Mascetti (Italy) 167
Suppression of somatosensory evoked potentials by nitric oxide synthase inhibition in rats: methodological differences
A.C. Ngai, J.R. Meno, M.A. Jolley, H.R. Winn (USA) 171
Effect of acute, but not chronic ethanol treatment on somatostatin secretion in rat hypothalamic neurons
F. Rage, S. Arancibia, L. Tapia-Arancibia (France) 175
